SUMMARY

Frontend Engineer with **1+ year of hands-on experience** building **production web applications** using **React.js** and **Next.js**. Skilled in developing **reusable dashboard interfaces**, integrating **REST/GraphQL APIs**, and managing **server and client state** with **React Query** and **Redux Toolkit**. Focused on **maintainable UI architecture**, **responsive design**, and **frontend performance**.

EXPERIENCE

NEXT.JS DEVELOPER 10/2025 – 01/2026
QUMRA CLOUD REMOTE (EGYPT)

- Built core **React/Next.js dashboard modules** for **Products, Orders, Notifications, and Offers** in a production environment.
- Built **30+ reusable UI components** using **TypeScript, Tailwind CSS, and shadcn/ui**, standardizing UI patterns across dashboard modules.
- Integrated **REST/GraphQL APIs** with **React Query**, implementing queries, mutations, pagination, and caching, while collaborating with **frontend and backend teams** in an **Agile/Scrum environment using ClickUp**.

FRONTEND DEVELOPER 01/2025 – 09/2025
EXEEM CAIRO, EGYPT-REMOTE

- Built and delivered **frontend applications** using **Next.js** and **React.js**, translating requirements into **responsive, reusable interfaces** across **5+ production projects**.
- Improved page performance by reducing unnecessary **Client Components** and leveraging **Next.js Server Components** to minimize client-side JavaScript and improve rendering efficiency.
- Developed **20+ reusable, responsive UI components** with **Tailwind CSS, SCSS, and shadcn/ui**, improving development efficiency and UI consistency.
